Cyber Kids

Intro to Technology & Internet Safety Book

Name: .....

Grade: .....

Year: .....

Written and Designed by:
Axel Sanchez, Cristal Hernandez, Isis Mendez, and Jacqueline Mendoza of Argo High School

This Book Belongs to:

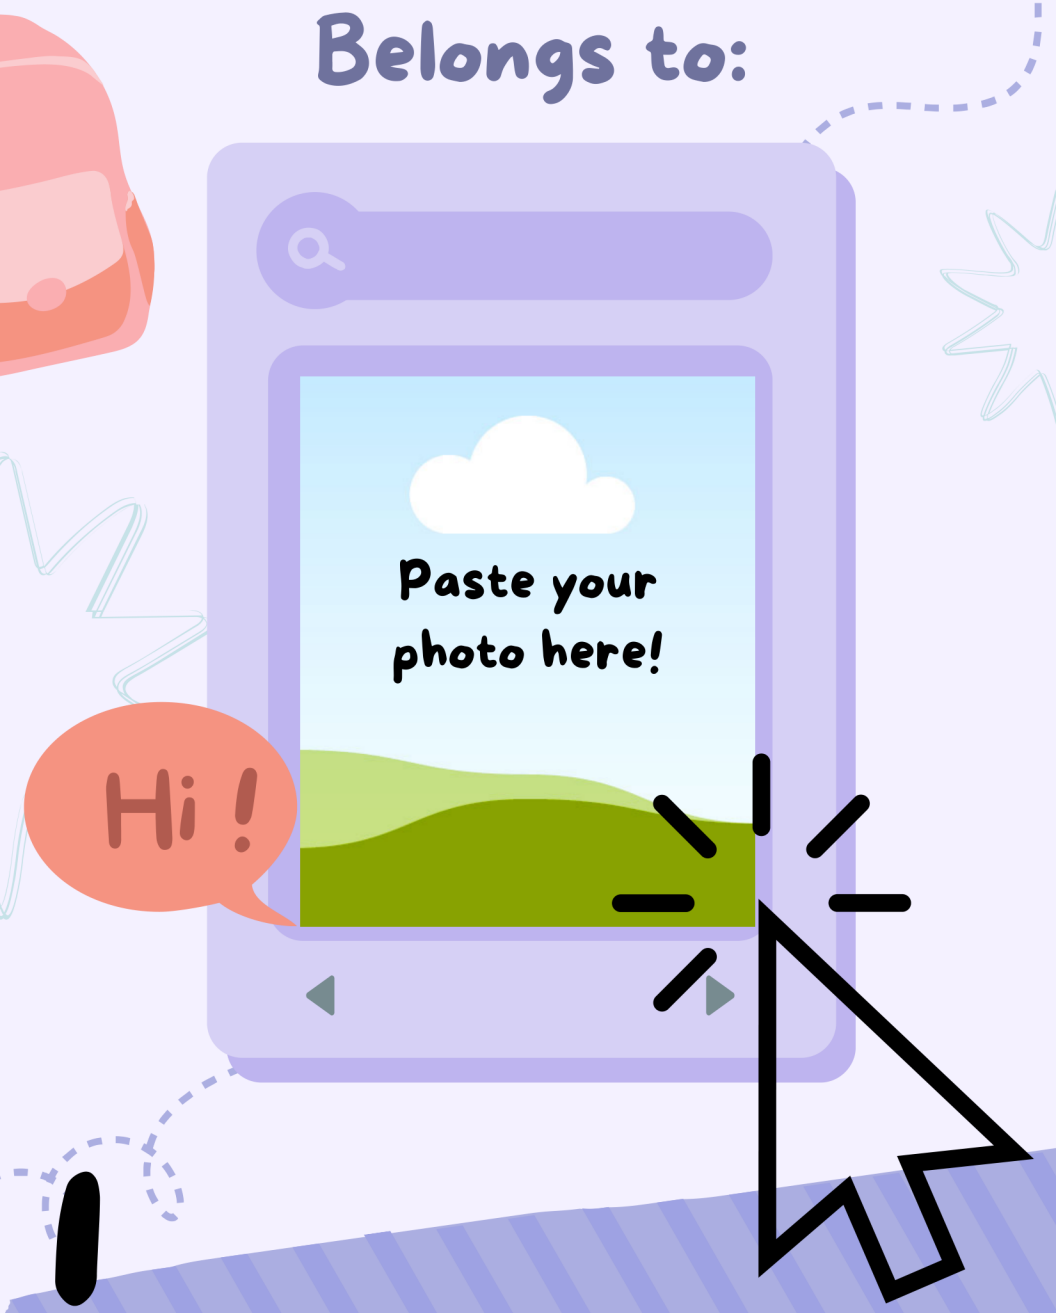

Table of Contents

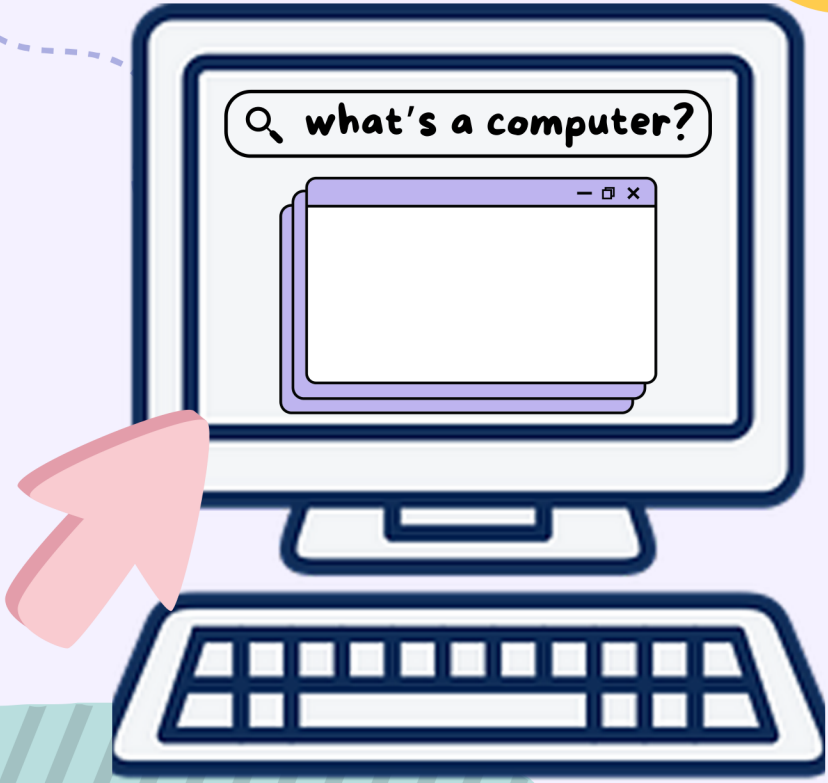
Pages: 3 - 14	Intro to Technology
Pages: 15 - 22	Internet Safety
Pages: 23 - 24	Conclusion
Pages: 25 - 27	Create your own Poster

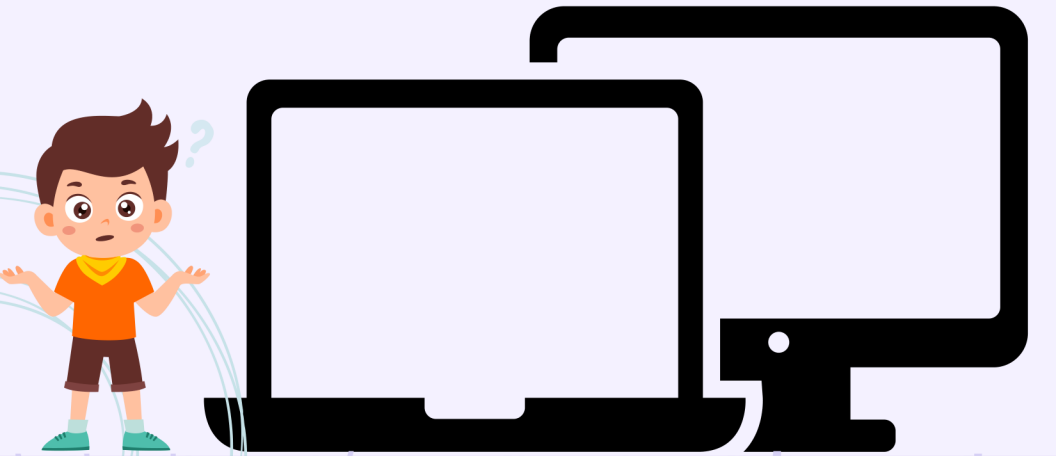
Introduction to Technology



4

What is a Computer?

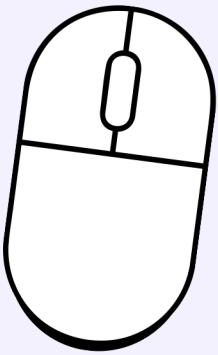
A computer is like a smart machine that can do many different things. It can help you play games, watch videos, and even do your homework! It has a screen where you can see things, and you can connect it to a keyboard or mouse to tell it what you want to do.



The Parts of a Computer

This is a monitor

This is a mouse



This is a keyboard

What is a Desktop?

A desktop is like a big, powerful computer that sits on a desk. It's like a magical machine that can help you do all sorts of things, like playing games, doing homework, and even creating cool artwork.

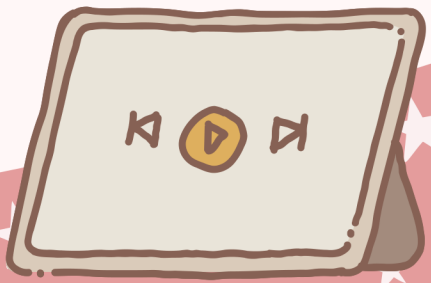
It has a big screen, a keyboard, and a mouse that you can use to control it.

Laptop

A laptop is a special kind of computer that you can carry around with you. It's like having a mini desktop that you can take anywhere! It has a screen, a keyboard, and a touchpad or mouse that you can use to control it.

Tablet

A tablet is like a big, magical screen you can touch. It's like having a fun book that can show you videos and games, and let you draw and write. You can use it to read stories, learn new things, do homework, and play with cool apps.



Cell Phone

A cellphone is like a super fancy phone you can carry with you everywhere. It's not just for making calls, but also for sending messages, taking pictures, playing games, and even browsing the internet.

A cellphone is like having a minicomputer in your pocket!

Projector & Smartboard

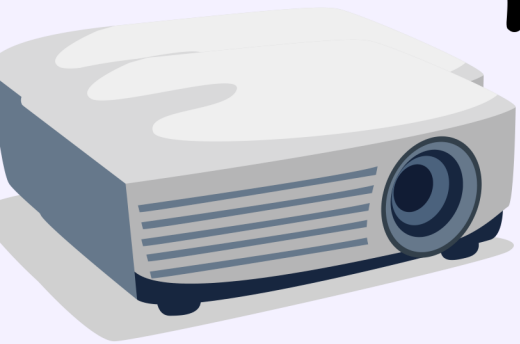
Projector

A projector is a special machine that makes big pictures or videos. It's like having a movie theater in your classroom! Your teacher can connect it to a computer or other devices and show the images on a big screen or wall.

Smartboard

A smart board is like a big magic whiteboard your teacher uses in class. Instead of using regular markers, they use a special pen to write on it. But the coolest part is you can play interactive games! It's like having a giant tablet right in the classroom.

Projector



Smartboard

Technology

Draw a line from each picture to its correct name.

Projector

Monitor

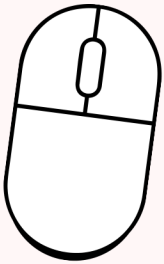
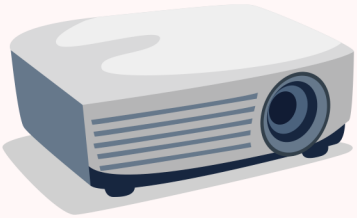
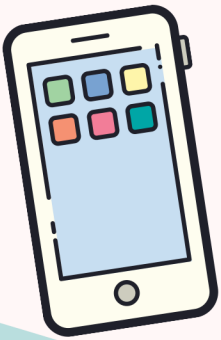
Laptop



Tablet



Smartboard



Introduction to Internet Safety

Internet safety is the ability to stay safe online.

Practicing internet safety will keep you safe from bad guys that will try to steal your personal information and try to cause trouble.

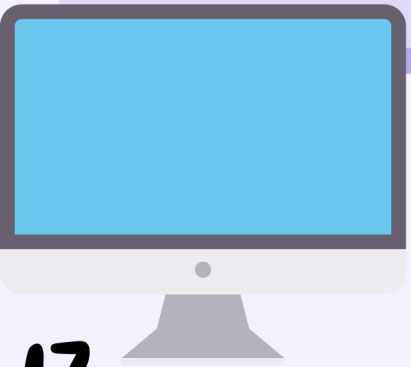
What is Internet Safety?

Internet safety is...

...Is all about staying safe online and protecting yourself against potential risks on the internet. These risks include viruses, scams, and strangers.

Stranger Danger

Stranger danger means being careful around people you don't know well. The same goes for the internet. It's important not to share personal information with people you don't know online. Just like in real life, it's better to be safe and cautious.



Passwords & Identity

Passwords are like secret codes that keep your personal information safe. It's important to never share them because it can make your accounts less secure and easier to hack.

What is a Hacker & Troll?

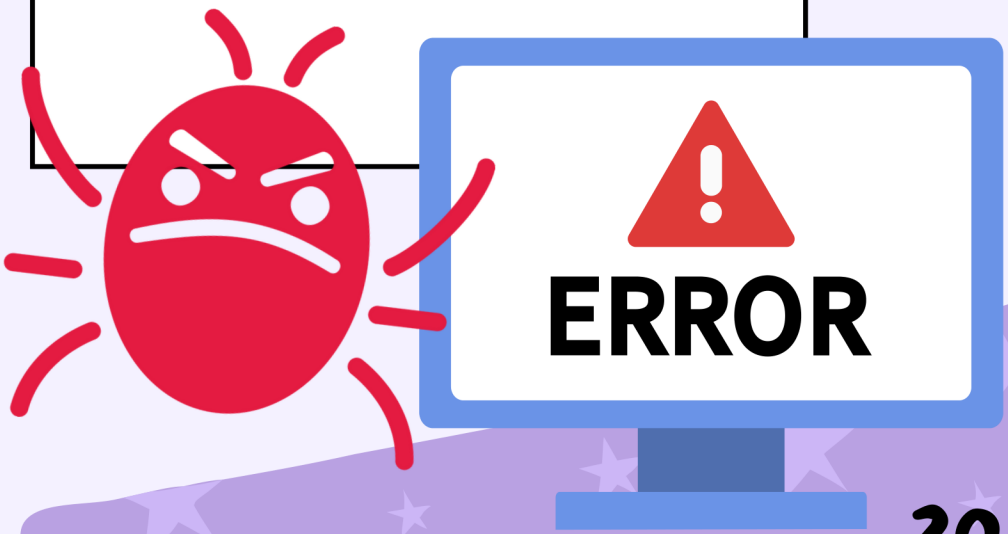
A Hacker is someone who uses their computer skills to explore or break into computer systems. Some hackers are, but some are good and help make systems more secure!

A troll is someone who plays mean tricks or says unkind things online to upset others. They might write mean comments or try to start fights. Always remember, it's important to be kind and respectful online!

Virus & Vulnerability

Viruses are harmful. They are like sneaky pirates that steal from popular websites and links, causing bad software called malware to appear and hurt your device.

Vulnerability is the weakness of a particular part in a system that allows trolls to enter.



Internet Sa

Circle the

1. What should you do if you get a message from someone you don't know?
